## CERTIFICATION FOR FEMTEC Innovation Lab 2023 Strategic analysis of decentralized energy supply

**Sandhya Elizabeth Anto**  
Technische Universität Darmstadt

successfully participated in the FEMTEC Innovation Lab from March to July 2023 in collaboration with Daimler Truck. She has worked on the topic **"Strategic analysis of decentralized energy supply"**.

The Innovation Lab is a program in which a group of 20+ scholarship holders spread across eight different universities collaborate together on a specific challenge. They practice both the application of innovation and project management tools.
